BUILDING SMOKING POLICY

Building/Property Address: _____

There is no safe amount of exposure to secondhand smoke. Adults exposed to secondhand smoke have higher risks of stroke, heart disease and lung cancer. Children exposed to secondhand smoke have higher risks of asthma attacks, respiratory illnesses, middle ear disease and sudden infant death syndrome (SIDS). For these reasons, and to help people make informed decisions on where to live, New York City requires residential building owners (referred to in this policy as the "Owner/Manager," which includes the owner of record, seller, manager, landlord, any agent thereof or governing body) in buildings with three or more residential units to create a policy on smoking and share it with all tenants. The building policy on smoking applies to any person on the property, including guests.
